

Lucas Maverick Trevillian

Phoenix, MD 21131 | (410) 562-8419 | ltrevillian@ycp.edu

Motivated mechanical engineering student with four years of experience completing hands-on team projects. Knowledgeable in design schematics using SolidWorks and AutoDesk and trained in documenting engineering specifications. Looking for a co-op immediately.

Education

York college of Pennsylvania, York, PA
Bachelor of Science in Mechanical Engineering

Expected Graduation: May 2028

Engineering / Technical Skills

MATLAB, SolidWorks, AutoDesk, AutoCAD, Microsoft Office, Google Docs

Engineering Projects

Engineering Capstone class | Dulaney High School, MD | Fall 2022

- Determined the ergonomics of a knife handle over extended periods of use
- Designed an attachable handle for a crochet hook using SolidWorks
- Manufactured a working prototype of the crochet handle

Civil Engineering and Architecture | Dulaney High School, MD | Fall 2022

- Planned out a floor plan for the SkillsUSA meeting room of my high school
- Determined the most effective heater required for the SkillsUSA meeting room

Various Projects at York College of Pennsylvania

- Designed a hammer from Scratch using SolidWorks, Spring 2024
- Crafted a fidget toy using Solid Works, Spring 2024

Work Experience

Shorty's Ice Shack | Snowball Maker | Severna Park, MD | Summer 2019-Fall 2022

- Manufactured and distributed the products of the business
- Demonstrated the inner workings of the business to brand new employees

Leadership & Volunteer

SkillsUSA | Member | Phoenix, Md | Fall 2023-Spring 2023

- Networked with local engineering professionals
- Assisted in the construction of the SkillsUSA meeting room

Vex Robotics | Builder/CADer | Phoenix, Md | Fall 2023

- Designed a 3-dimensional model of a robot in AutoDesk
- Constructed a functioning and competitive robot that shoots discs
